GRADING POLICY:

Bellus Academy's course provides education and training in the areas associated with skills needed to graduate that are measured by course objectives. The academy offers theory instruction in both an asynchronous (progress is virtually tracked and monitored by an instructor that engages with the student on an individual basis) and synchronous (students and instructors interact with specified start and end times) distance education formats using electronic media. These delivery methods via distance education provide the same training as in a residential format. The school maintains complete records on each student or graduate for reference as required by the State. All students receive a complete theory and practical test after each section of the program has been completed. Individual tutoring, if needed, is available in preparation for the state exam. Grading to evaluate learning objectives via distance education theory is primarily through tests. Each student is graded on their theory and practical work, attendance, appearance, and attitude. The grading used is as follows:

93 – 100	EXCELLENT
85 – 92	VERY GOOD
75 – 84	SATISFACTORY
74 and BELOW	UNSATISFACTORY

Written progress reports are maintained by the Academy. Students receive progress reports that must be signed and kept in their file at least two (2) times during their program. Informal progress reports are distributed monthly and are available on the Bellus App so students can keep track of their progress. Additional progress reports may be issued to students as requested or on an as needed basis determined by the instructor.

OCCUPATIONAL TITLES

Graduates will enter the field as estheticians, sometimes known as facialists or skin care technicians.
